

THE Inclusion Initiative

The Inclusion Initiative is a project of Translate Gender, a trans-led non-profit. We offer supportive frameworks, trainings, workshops, inclusion/equity assessments, and technical assistance for creating accountable and inclusive environments for trans, nonbinary, and gender expansive people.

Who We Work With

From PreK-12 schools to higher ed institutions, grassroots groups to non-profit orgs and businesses - we support growth around issues related to gender. From trainings and admin support to creating inclusive policies that impact trans people and their families, to personalized workshops and discussions.

Our Approach

We utilize curriculum and tools that created for and by our communities. Our training modules are customizable, and all our offerings are tailored to meet your specific needs. We use real life examples as learning opportunities, and work to meet you where you are. We believe that training alone isn't the answer; with supportive policies and practices, ongoing conversations, and advocacy, our communities can thrive wherever we are.
